Nick Schutts

Engineering Physics, University of British Columbia
604-753-7214 | nicholas.schutts@gmail.com | LinkedIn | nschutts.github.io

Profile

Second-year Engineering Physics student with hands-on experience in electromechanical design and integration through Formula SAE. Proficient in CAD, with a demonstrated ability to learn new tools quickly and adapt to difficult and novel problems. A steady, outgoing communicator with experience working in fast-paced settings and collaborating with diverse teams.

Education

University of British Columbia — Vancouver, BC
Bachelor of Applied Science, Engineering Physics | *GPA: 93.2%* — *Sep 2025 – Present*
- Trek Excellence Scholarship (2025/26); Dean's Scholar (2025/26)

Vancouver Waldorf School — North Vancouver, BC
BC Dogwood Diploma — *Sep 2021 – Jun 2025*

Technical Projects and Experience

Formula UBC Racing — Sep 2025 – Present
Electrical Subteam Member — *Vancouver, BC*

Vehicle System Validation Board (VSVB) | *In Progress* — Portfolio
- Designing PCB validation unit for system-level benchtop testing of the FSAE wiring harness.
- Interfacing directly with Haltech Elite 1500 ECU, PDM, and dashboard to simulate analog, digital, and reluctor sensor inputs for drive-by-wire implementation.
- Designed on-board power regulation in Altium, stepping the 12 V supply down through an isolated DC-DC converter, buck regulator, and LDOs to produce clean 5 V and 3.3 V rails with input conditioning.

Formula SAE Dashboard Enclosure — Portfolio
- Engineered 3D-printed dashboard enclosure for UBC's 2026 Formula SAE car in SolidWorks, ensuring electrical compatibility and integration with other vehicle subsystems.
- Validated design through multiple prototyping methods and iterations while adapting to repeated changes in design parameters.

Autonomous Claw Project — Portfolio
- Independently produced electromechanical design for in-class claw retrieval competition, including electrical circuit schematics for Arduino integration.
- Implemented guidance program in C++ to pilot the claw autonomously during competition.

Work Experience

Bartender — Apr 2026 – Sep 2026
Northview Golf and Country Club — *Surrey, BC*
- Worked individually in a fast-paced, high-stress environment, prioritizing multiple concurrent tasks under strict time constraints.
- Maintained high attention to detail, ensuring consistently high drink and service standards.
- Optimized organization and inventory, using product knowledge to facilitate communication between guests, servers, kitchen staff, and management.

Pharmacy Assistant — Feb 2023 – Aug 2025
Northmount Compounding Pharmacy — *North Vancouver, BC*
- Collaborated with pharmacists in a fast-paced environment, helping to accurately fill up to 225 prescriptions per day.
- Provided professional customer service to patients, both over the phone and in store.
- Managed inventory, drug ordering, prescription filing, expired medication returns, and courier deliveries.

Skills

Electronic: Altium Designer, LTSpice, STM32, Arduino, Oscilloscopes, Soldering, Power Management Design
Mechanical: SolidWorks/PDM, FEA Simulation, 3D Printing, Laser/Waterjet Cutting, Lathe Turning
Software: C/C++, Python, MATLAB, Java, Git, Claude Code
